## REVIEW REPORT ON INTERIM FINANCIAL INFORMATION

To the Unitholders  
Riyad USD Diversified Trade Fund  
Riyadh, Kingdom of Saudi Arabia

### Introduction

We have reviewed the accompanying interim condensed statement of financial position of Riyad USD Diversified Trade Fund (“the Fund”), managed by the Riyad Capital Company (the “Fund Manager”), as at June 30, 2025, and the related interim condensed statements of comprehensive income, changes in net assets attributable to the Unitholders and cash flows for the six-months period then ended and other explanatory notes. The Fund Manager is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34 Interim Financial Reporting (“IAS 34”) as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on this interim financial information based on our review.

### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, “*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*” as endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with IAS 34 as endorsed in the Kingdom of Saudi Arabia.

**13. FAIR VALUE ESTIMATION**

The fair value for financial instruments traded in active markets is based on quoted market prices at the close of trading on the financial reporting date. Instruments for which no sales were reported on the valuation day are valued at the most recent bid price.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The carrying value less impairment provision of financial instruments carried at amortized cost are assumed to approximate their fair values.

The fair value hierarchy has the following levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The fair value of investments carried at FVPL are based on quoted prices in active markets and are therefore classified within Level 1 and the units of mutual fund held by the Fund are valued based on NAV published by the fund manager.

All financial liabilities as of 30 June 2025 (Un-Audited) and 31 December 2024 (Audited) were classified as financial liabilities measured at amortized cost. The table does not include fair value information for financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

**14. RESTATEMENT**

During the year ended December 31, 2024, the Fund Manager identified misapplications of certain accounting principles related to IFRS 9 Financial Instruments in the financial statements of the Fund for the current and prior years. A comprehensive review was undertaken regarding the valuation of Tier One Sukuks held by the Fund, revealing that the SPPI (Solely Payments of Principal and Interest) test was not met.

As of December 31, 2024, the Fund Manager aligned the treatment as per IFRS 9 and reported the restatement in the financial statements of the Fund. However, as at June 30, 2024, due to the perpetual nature of these investments, they do not satisfy the IFRS 9 criteria that require payments to be solely for principal and interest with a definite term. As a result, a reclassification to fair value through profit or loss is necessary for proper compliance with IFRS 9.

This change in accounting assessment has already been applied to the prior year-end; consequently, a similar adjustment was taken to the six-months period ended June 30, 2024 interim financial information.

Impact of the adjustment on the interim financial information for the period ended June 30, 2024:
